

About me

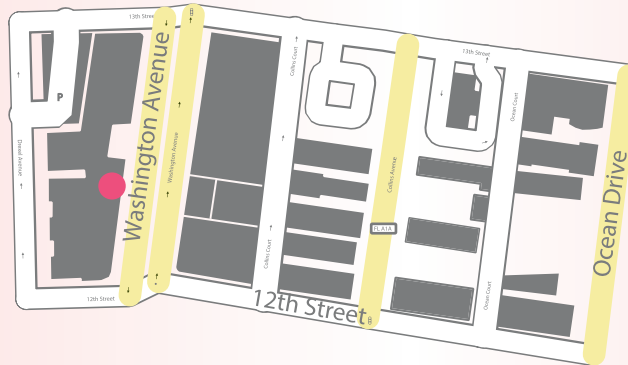

After graduating from esthetician academy in 2007 in Europe, I completed further training in different beauty fields like nail art, microblading, permanent makeup and eyelash extensions.

I found my biggest passion in eyelash extensions and brow art, so I visited more detailed workshops in Europe and the States throughout the years.

I am always amazed how much perfect shaped eyebrows and a customized set of eyelash extensions can transform and frame a face.

I want to bring my passion to you to make you feel beautiful. Providing excellent professional service with high quality products to my clients is my priority.

Lashthings Miami is a certified & licensed esthetician.
